Summary

Results-driven QA Automation Engineer / SDET with 5+ years of experience in manual and automated software testing across web and enterprise applications. Skilled in designing scalable automation frameworks, developing automated test scripts, and executing functional, regression, API, and end-to-end testing using tools such as Selenium, Playwright, and Postman. Experienced in Agile environments, CI/CD integration using Jenkins, and version control with Git. Strong expertise in defect analysis, test strategy development, cross-browser validation, and delivering high-quality software solutions through collaboration with cross-functional teams.

Experience

QA Engineer (System Engineer Role)	November 2022 – Present
Tata Consultancy Services	Kochi
- Designed and maintained automated test frameworks using Selenium, Playwright, and API automation tools to improve test coverage, efficiency, and software quality. - Developed and executed automated and manual test cases for functional, regression, integration, and end-to-end testing across multiple browsers, platforms, and devices. - Integrated automation suites with CI/CD pipelines using Jenkins and managed source code through Git to support continuous testing and faster releases. - Collaborated with developers, business analysts, and product teams in Agile environments to identify defects early, perform root cause analysis, and ensure timely issue resolution. - Performed API, usability, compatibility, and basic performance testing using tools like Postman while contributing to QA process improvements and automation best practices.	
QA Analyst (System Analyst)	October 2020 –November 2022
Envestnet Yodlee India	Trivandrum
- Conducted end-to-end and UAT testing for banking/payment applications to ensure regulatory compliance. - Diagnosed production issues, performed root cause analysis, and ensured timely resolution. - Led client UAT sessions to validate solution delivery and performance. - Created process flow diagrams and documented business and functional requirements. - Enhanced test efficiency through domain-aligned methodologies and continuous collaboration.	

Education

Indira Gandhi National Open University	
Master of Computer Application (MCA)	2021–2023
Santhigiri college of computer sciences, Vazhithala	
Bachelors in Computer Application (BCA)	2017–2020

Technical Skills

Languages: Java, Python, SQL (Postgres), JavaScript, HTML/CSS
Frameworks: Selenium, Playwright, TestNG
Developer Tools: Git, Docker, Eclipse, Power BI, SPLUNK, Postman API, JIRA, Bugzilla

Certifications

Software Testing- DoHSS, IIT Madras <i>NPTEL18CS42S11550311</i>
Database management system- IIT Kharagpur <i>NPTEL19CS12S41650063</i>
